**CONTACT US:**

CHAMPIONS INCORPORATED is a television sports drama series (and sports documentary series) set in the “behind the scenes” world of international sport - the dramatized story lines take place in an international sports management company of the same name and the series is designed to be internationally broadcast with principal locations including the Gold Coast in Australia, London, Monaco, New York, and Hong Kong.

A “telemovie” length pilot episode script has been completed and can be provided on request - series story lines can include any type of sport (including very visual extreme sports and sports that are recreational or competitive) - touring live sporting events will also be produced under the “Champions Incorporated” brand.

Celebrity sports persons make cameo appearances in the drama series storylines and the website includes blog sites to communicate with sports stars - the sports drama series has opportunities for sports related product placement and for associated sports merchandise that will be sold in our “Champions” store.
