

## LISTEN TO TWO MP3 MUSIC SAMPLES FROM OUR MUSICALS

- Please ensure that you have your computer speakers / headphones turned on and the volume turned up.
- Please make sure that you have [QUICKTIME](#) (a free download) or WINDOWS MEDIA PLAYER installed on your computer.
- Please note that these MP3 music samples were recorded with electronic / computer music sampling and with the single voice of an untrained vocalist - the sample recordings are only intended for audition purposes and should be listened to as “works in progress” as they are not the finished products – the performance music will sound much better when recorded (closer to production) with a full symphony orchestra and with multiple professional vocalists.
- Additional music samples (30 for each musical) are available through a separate music samples website - these additional music samples are intended for professionals assessing the musicals and are not for the general public - email us, and we can provide a link to this separate website.
